

# Allies Must Deal With Bolshevism As Well As With Germany; Rumanian Success In Budapest First Sign Of Winning Policy Of The Allies

BY FRANK H. SIMONDS  
(Copyright McClure Syndicate)

SPECIAL CABLE TO THE TIMES  
PARIS, May 9.—With the peace treaty presented to the Germans, an event of very great importance has taken place in Eastern Europe. The occupation of Budapest by Rumanian troops will probably constitute one of the decisive chapters in the history of Bolshevism. Following the battle of Paris six weeks ago, when Budapest "went" Bolshevism, and the feeble and dangerous efforts made thereafter by the Soviets to maintain their position, this is a result more fortunate than could have been expected. It would be difficult to exaggerate the far-reaching effect of what must be regarded as the first really intelligent step in the East.

At the moment when Rumanian troops have entered the Hungarian capital and put an end absolutely to Hungarian Bolshevism, Polish troops have taken Grodno and Vilna and are advancing to Minsk.

**BOLSHEVISM COLLAPSING**  
Everywhere, except in the south of Russia, Bolshevism is collapsing and Poland and Rumania, allies of the west alike against Bolshevism and Germany, are fulfilling the mission which wise statesmanship would long ago have assigned to them. The fall of Bolshevism in Hungary at one time foreshadowed a similar collapse in Russia and deprives the Germans of one of their best blackmailing arguments in the conference of Paris.

For many months the Germans have threatened to surrender their country to Bolshevism if the Allies did not give them a soft peace, and it is possible now to say with absolute frankness that these threats profoundly impressed the allied statesmen and for the time being, greatly weakened the allied resolution. But now we have a clear example.

Hungary turned itself over to Bolshevism when it discovered that its allied terms of peace included the transfer from Hungary to Roumania, Yugoslavia and Czechoslovakia of those territories inhabited by people belonging to races to which they were to be assigned. A dramatic appeal to Lenin and Trotsky accompanied the maneuver. What Hungary obviously hoped and expected was that in the presence of this new measure of Bolshevism, the Western Powers would change their terms.

**TOOK SOUND COURSE**  
Instead, after long hesitation and weak experiments, the Allies at last took the sound course and permitted the Rumanian and Serbian armies to advance into Hungary as representatives of the western Allies. After the briefest of campaigns, the red army of Hungary fled the field, and the whole Bolshevism structure collapsed. Hungary agreed to accept all the terms fixed by the Paris conference, and under the supervision of the allies of occupation to purge herself of Bolshevist elements.

Thus the breach in the famous cord between Russian Bolshevism and German middle Europe has been closed. Russian Bolshevism is again isolated, and is manifestly on the last legs. During recent weeks we have had in Paris a frank effort on the part of well-intentioned Americans and British humanitarians, possible victims of less well-intentioned intrigue, to carry food to Russia. So far, this effort has failed. If failure remains constant, it is possible to hope that (Continued on Page Eight)

### DISORDERS MARK TOLEDO INDUSTRIAL DISPUTES; GOVERNOR TAKES ACTION

COLUMBUS, O., May 9.—Governor James M. Cox today directed George F. Miles, chief mediator of the State Industrial Commission, to go to Toledo and tender his services toward settlement of the labor troubles at the plant of the Willys-Overland Automobile Company.

TOLEDO, O., May 9.—Disorder which started yesterday afternoon and last night in connection with strikes and walkouts at three Toledo industrial plants, including that of the Willys-Overland company, broke out again this morning, when special officers on duty at the plant of the Ford Plate Glass company, in Wood county, fired on 50 strikers approaching the time-keepers' office. To quell what appeared about to be a riot, the officers, who include a special force of returned soldiers, fired low and nobody was hit. The strikers dispersed and later an I. W. W. agitator was arrested when he took refuge in a house.

The police department is devoting its entire attention to measures to quell rioting, and further trouble is momentarily anticipated at the Overland plant and at the Auto-Lite and Ford Glass company plants, at all of which places the men are reported to be in an ugly mood. Overland workers have been strictly counseled against violence.

It is estimated 10,500 men and women are idle. There appeared no prospect today of settlement of disputes at the Overland, Auto-Lite and Ford Plate Glass company plants, and a statement came from the merchants and manufacturers' board that unless trouble is at once allayed other plants may be closed.

The Willys-Overland plant, where approximately 10,000 men and women were locked out this week, because of differences over hours of work, continues to be closed indefinitely, and 4000 men are held in the Wood county jail following rioting at the Ford Glass Plate plant.

The men last night held a demonstration in front of police headquarters.

### U. S. Planes Delayed On Second Leg Of Flight, NC-4 To Try Again

WASHINGTON, May 9.—The departure of the naval seaplanes NC-1 and NC-3 from Halifax for Trepassy Bay, N. F., on the second leg of their trans-Atlantic flight, has been postponed until tomorrow, the navy department was advised just before noon today in a radio message from the supply ship Baltimore, at Halifax.

Commander Towers explained that it had been found necessary to do some work on the propellers of the planes, but he did not go into details. Less favorable weather for the flight tomorrow than that obtaining today, was forecast by the weather bureau.

HALIFAX, N. S., May 9.—Two of the American navy seaplanes, the NC-1 and the NC-3, arrived here, at eight o'clock last night (7 o'clock New York time) thus finishing successfully the first leg of their trans-Atlantic flight.

HAD "REGULAR OHIO" LUCK  
CHATHAM, MASS., May 9.—The naval seaplane NC-4 was towed into Chatham harbor by a motor boat from the Chatham aviation station about 5:30 o'clock this morning. The NC-4 was first sighted by a guard at the station. The members of the crew of the seaplane reported that they were comfortable and that they had passed the night on a calm sea. Only one engine of the seaplane was in service, the others having been disabled on the trip from Rockaway.

WILL TRY IT AGAIN  
CHATHAM, MASS., May 9.—The hydro-airplane NC-4 which was towed into the naval air station here today, after having been compelled to land yesterday because of engine trouble while on the first leg of the trans-Atlantic flight, probably will resume the trip to Halifax tomorrow, according to naval officials. Two of her four engines were out of order, but mechanics expect to be able to make repairs quickly.

The NC-4, one of the American planes participating in the trans-Atlantic flight, was forced to drop out on the first leg of the flight yesterday while on its way to Halifax when three of its four engines "went dead." The plane drifted around on the ocean during the night and this morning made its way toward Chatham, Mass., with the aid of its sole operating engine, where a motor boat towed it into port. It is hoped to repair the engines at once and resume the flight to Halifax. The other two planes the NC-1 and the NC-3 made a successful flight to Halifax.

## MAKE VICTORY LOAN A GREAT POPULAR THANK OFFERING

WASHINGTON, May 9.—President Wilson today issued, through Secretary Glass, an appeal to the American people to make the victory liberty loan "a great popular thank-offering."

WASHINGTON, May 9.—The total of the victory loan today went above \$3,000,000,000, but treasury officials said the exact figures for today's standing could not be tabulated until tonight.

WASHINGTON, May 9.—The treasury department today recognized officially the claim of the St. Louis district of having exceeded its victory liberty loan quota by gathering subscriptions of \$195,101,000 and thereby winning the honor of being the first district to achieve this record.

## DEADLOCK IN STEEL PRICE CONTROVERSY

WASHINGTON, May 9.—Resignation of the department of commerce's industrial board was expected by official circles here today, as a result of the railroad administration's refusal to accept the board's schedule of steel prices. With the largest purchasing agency in the country buying on a competitive basis, it was said, the board was without influence to promulgate agreed prices for the use of the public.

### GERMANS DIVIDED ON QUESTION OF SIGNING; THREATEN BOLSHEVISM

USE REDS—He SAYS  
BERLIN, May 9.—(By the A. P.)—"There is only one immediate solution—peace with Russia and the use of Bolshevist troops for Germany," Herr Geisberts, one of the German delegates at Versailles, is quoted by the Neue Zeitung as declaring with reference to the peace terms submitted.

**ORDERED NOT TO SIGN**  
PARIS, May 9.—(By the A. P.)—The Chinese delegation has received cabled instructions from Peking not to sign the treaty of peace, because of the Kiao-Chao-Shantung settlement.

**TO WIPE OUT AUSTRIAN NAVY**  
PARIS, May 9.—The naval terms of the treaty to be presented to Austria, as they have been completed, entirely wipe out the Austrian navy. All the ships of that navy, large and small, are to be surrendered. Their disposition among the allies is to be adjusted later.

**GERMANS DIVIDED**  
PARIS, May 9.—The German delegates to the peace congress are considerably divided among themselves in their views on the peace terms submitted by the allies and associated powers. It was indicated today by a high British authority, a Reuters statement says.

**CLEANING UP WORK**  
PARIS, May 9.—Both the council of four and the council of foreign ministers resumed their sessions this morning. The former is giving special attention to the impending negotiations between the allies and Austria, and the latter is discussing reports on the boundaries of former Austro-Hungarian territories.

**AUSTRIANS ON WAY**  
PARIS, May 9.—(By the A. P.)—The Austrian peace delegation, numbering from 40 to 50 persons, is expected to arrive at St. Germain on May 12. Information received from French sources is that the delegation has not as yet left Vienna, owing to difficulties encountered in selecting its members because of differences of opinion regarding the proposed incorporation of German-Austria in Germany.

Dispatches received here today, indicate that while Franz Klenz, president of the delegation, favors annexation, Prof. Janasch, another influential member, opposes it, and that sentiment against the proposal is growing. The rest of the delegation is said to be divided on the question.

**COUNTER PROPOSALS EXPECTED**  
PARIS, Thursday, May 8.—(Havas)—It is generally believed that the Germans will answer the delivery of the treaty of peace by proposals relative to certain phases of the document. A competent commission will examine the German answer and if modifications are necessary, the Germans will be notified.

It is expected that in this rejoinder the enemy will be allowed four or five days to agree definitely to the whole treaty. It is therefore probable that from twenty-five to thirty days will elapse before the pact is finally signed.

**THE ADRIATIC PROBLEM**  
PARIS, Thursday, May 8.—(Havas)—President Clemenceau, Wilson and Franklin D. Roosevelt discussed the diplomatic situation this morning and a meeting this evening took up the question of Italy's claims to territory on the eastern shore of the Adriatic. The council of foreign ministers considered the problem of the frontiers of Hungary at a meeting today.

**GERMANS RELAX**  
VERSAILLES, May 9.—(By the A. P.)—Eight new members of the German delegation have arrived here, but as yet they have not communicated with their colleagues here. Colonel Henry, who was the only link between the Germans and the allies up to the time of the presentation of the treaty, has ended his activities. The German delegates generally relaxed their rigid routine of the past few days and walked in the park this morning.

**CONDEMN TERMS**  
BERLIN, Thursday, May 8.—Condemnation of the peace terms is expressed by all the newspapers here, those of the extreme right referring to the conditions as "unfathomable" and to the treaty as "an instrument of robbery."

The Neue Zeitung says: "One thing is certain, there can be no question of this being a peace of justice. What a peace of justice after the entire pattern and in accordance with French desires, looks like is shown by the conditions which leave nothing of Germany but a torn and shattered territory."

The Freiheit says that compared with the policy Germany pursued at Brest-Litovsk, the entire peace "must be termed quite moderate," but it is argued that the terms are in sharp contrast with President Wilson's "fourteen points," and that if peace is to be built on this compromise, it assuredly can have no firm and lasting foundation.

"A peace of annihilation," is the caption used by Vorwarts, which says there is "a ruthless desire to lay Germany permanently low by force. If we sign this peace, it is because we are bound by force, but in our hearts we resolutely reject it. Such a peace is an attempt to exterminate a nation, not by force of arms, but by a means more brutal, economic slavery."

**BELGIUM ENTERS PROTEST**  
PARIS, May 9.—The Belgian delegation has issued a note relative to Great Britain being appointed mandatory for German East Africa, saying that it is "unable to believe that this action has been taken by the council of four."

## Plot For British Mutiny Bared

LONDON, May 9.—A conspiracy to induce British soldiers to mutiny and soldiers to demoralize themselves by marching out of their barracks, has been discovered, according to the Daily Mail. The premises of various persons have been searched and documents seized.

The stations involved, the newspaper says, include four in France and several in England, while the soldiers in naval ports have been circulated with a view to lulling them to sleep and the ports and the soldiers and police to join them.

The object of the plot is stated to be to compel the government to use force if the projected disorders should occur, the organizers believing that this would precipitate anarchy.

Everybody Is Talking About Anita Stewart And Her Sensational Picture "Virtuous Wives" Showing At The Columbia Tonight and Tomorrow

Anita Stewart, one of the most popular of all motion picture stars, opened a three day engagement yesterday at the Columbia in her latest special production, "Virtuous Wives," and everybody in the big crowds that saw this picture was unanimous in their praise of same.

"Virtuous Wives" is described as a truthful story of married life in New York society. According to the author in the introduction to his story, a virtuous wife is becoming an extinct species of femininity under present day conditions. The reasons for this, as described in his novel, have been included in the screen adaptation. Miss Stewart makes her return to the American screen after an absence of several months in the role of Amy Forester, the "only member of a social set to whom pleasure is young." As the wife of Andrew Forester, and obsessed only with the idea of constant and uninterrupted amusement she appears in the role of the young society matron who finally is brought to a realization that unbridled pleasure is but the ash of happiness.

Has All-Star Support

Supporting Miss Stewart in "Virtuous Wives" are four stars of present New York theatrical season. Conway Tearle plays the part of Andrew Forester, money-maker; Edwin Arden is seen in the role of Rudolph Delabarre; Mrs. De Wolf Hopper plays the part of his wife, Irma Delabarre, and William Boyd appears as Monte Bracken, social waster.

Love Call.

In "The Love Call" little Billie Rhodes has one of the most charmingly original roles she has ever played. The locale of the story is a western frontier town, where life is a cheap commodity and two-gun men are a law unto themselves.

A picturesque cowpuncher took her under his protection and promised to see that she got her "education," whatever that meant, even going to the length of beating up an innocent old college professor who tried to explain that an education wasn't a vegetable, but something to be acquired by study.

# MISSIONARY SOCIETY MEETS

7:30 P. M.  
"America."  
Devotions—Rev. Chandler.  
Talk—Mrs. Ledy.  
Sextette.  
Address—Miss Yanak.  
Offering.  
"Star Spangled Banner."

The all day session of the District Convention of the Woman's Home Missionary Society which is being held at Highgate church opened this morning.

The afternoon session began at 1:30, the evening session at 7:30. Arrangements have been made to have all sessions very interesting. A feature of the day are the talks of Miss Yanak who is a Mission school graduate and now works among the Slaves in Charleston, W. Va.

There will be special music at the

evening meeting. At this time Miss Yanak will speak telling in her own way the story of her life in the Mission school and her subsequent work with her own people and what Home Missions really mean to them.

At the morning meeting the great interest was directed on the subject of tithing. The reports included the number of tithers in each auxiliary and branches and it was deserving of much commendation that few societies had less than half their membership tithing.

Reports were read by delegates from the different church societies. Without exception the reports were excellent. Every circle had contributed to war work funds, many of them sending fruit and delicacies to Camp Sherman's base hospital.

The mite box fund was reported as being nearly \$400.

There were reports from the convention officers and a talk by Mrs. T. A. Sells, state representative, on tithing and the importance of organization.

Mrs. Frank Price, corresponding secretary, gave an interesting and instructive talk on Home Mission Work.

The visiting delegates and the resident ones were entertained by the Highgate hostesses at luncheon at the U. S. church.

A delightful informality and enthusiastic response to suggestions characterized the sessions which progressed smoothly through the business of meeting. Mrs. Terry Davenport, president of the local organization, presided graciously and asked for co-operation in making the meeting both a social and a business success.

Face Peeling Habit  
Becoming Fashionable

Women of fashion and refinement seem to have been acquiring the mercurial wax habit, depending less and less upon cosmetics for their complexion difficulties. It does seem a lot better to just peel off the worst skin when it loses its youthful color and appearance, now that this can be done so easily, safely, painlessly and economically. The "Scotch" wax is taken off the old worn skin, in tiny flakes, a little each day. The new under-skin which gradually appears, is so velvety soft and beautifully white, radiant with girlish loveliness. Any surface trouble like pimples, red or yellow patches, freckles, etc., vanishes of course with the discarded cuticle.

### Services Tonight

"The Good Heart" will be the subject of the sermon to be delivered before the local Jewish congregation by Mr. Leon From tonight. The services take place at the Temple, Corner Third and Washington streets, at 7:30. You are welcome.

### Big Rise Coming

A twelve foot rise is expected in the Ohio river here which will put the river to the 30 foot mark. The rainfall has been unusually heavy the last two days. The rainfall from seven o'clock Friday morning until noon was .41 of an inch. From Thursday morning at seven o'clock until noon today the total rainfall was 1.13 inches. There is a general rise in the Ohio river and all its tributaries from Pittsburgh down.

Thin, Nervous Folks Should Take Bitro-Phosphate

Women Need it to Bring Pink Glow of Health to Pale Cheeks and Forestall "Tall-Tale" Line of Age. Men Need it to Make Strong Vigorous Bodies and Steady Nerves.

Weak, thin people—men or women—are nearly always nervous wrecks; their constitutions are so weak that they are almost invariably due to nerve starvation. Feed your nerves and all these symptoms due to nerve starvation will disappear. Excellent specialists state that the best nerve food is organic phosphate known among druggists as Bitro-Phosphate, a five-grain tablet of which should be taken with each meal. Being a genuine nerve builder and not a stimulant or habit-forming drug, Bitro-Phosphate can be safely taken by the weakest and most delicate sufferer, and the results are shown in the use of it are often simply astonishing. Weak, thin people regain strength and vigor; thinness and age disappear; the complexion becomes rosy and clear; the eyes become bright; the hair grows again; the pink glow of health returns to the cheeks; confidence and cheerfulness replace doubt and gloom; dullness of mind is replaced by clearness of thought. Bitro-Phosphate, the best of which is in the world, is sold by Fisher & Steich Pharmacy and all good druggists. CAUTION—Although Bitro-Phosphate is unexcelled for relieving nervousness, sleeplessness and general weakness, it should not, owing to its remarkable flesh-growing properties, be used by anyone who does not desire to put on flesh.

Women To Close Drive With Renewed Vigor

On the last lap of the race toward the goal—Success for the Victory Loan—the women of Scioto County are urged to make every effort to put the issue through. The women of Scioto County have never fallen down on a war issue, now is the time to rally to the standard. The gratitude of the women must not be doubted and the Victory Loan is nothing more than paying a debt of gratitude. So far the women have done very well under the circumstances but there are women who have not contributed and some women who have unintentionally been overlooked in the house-to-house canvass. If the county chairman, Mrs. W. H. Schwartz, or the chairman of the Central Committee Mrs. Albert Berold, be notified, the committee will make arrangements to see these people. Women canvassers are urged to renew efforts in their territory and finish up their work so that the final report may be made at headquarters Saturday.

# One More Day And Victory Loan Drive Will Come To End

"One more little turn of the paddle—your last chance to get in the game." That cry that you have heard at so old time country fairs is applicable in a sense to the local Victory Liberty Bond campaign. "One more short day—your last chance to get in the game." For the big drive closes Saturday night and the committee is holding its breath in anxiety. There are some members of the committee who have their misgivings—others are of a more optimistic frame of mind and others are sitting tight and waiting to be shown. The great question is, "Will Portsmouth and Belknap county go over the top?" Hereafter that question was taken for granted—there wasn't any anxiety and no misgivings. But it seems that while it would be an easy matter for the city and county to subscribe their full quota, \$1,100,000, the necessary enthusiasm is lacking—there is not that "pep" that was so manifest in the other four campaigns. But that does not mean the quota will not be reached—still water runs deep and perhaps before the time limit expires the word will be flashed that all is well and that the good people here have answered the call of their country in a way that leaves no one chance to question their loyalty.

The committee are working hard—they are going over the ground with fine teeth combs. Pressure is being brought to bear—and in practically every instance said pressure is bearing fruit.

Russell Anderson, chairman of individual subscribers, is wearing that smile that won't come off. Here and there and everywhere he is recruiting his forces and many people are coming to him and making their subscriptions. However, he still has many application blanks and is ready to care for all who come. If you have not made a subscription notify Mr. Anderson at Anderson's store, his store and you will be recommended. If it is impossible to see Mr. Anderson of the store, he will arrange to see you at your convenience. Remember it is not necessary for you to pay the entire amount of your subscription when application is made. Ten per cent in cash and ten per cent each month is one way of paying for your bonds. If you want to purchase bonds a way will be arranged that will suit your ability to pay.

Henry Winter, chairman of the retail merchants, was stepping high last night. He stated that the merchants of Portsmouth are going to exceed their quota by more than 50 per cent. That is fine and shows that there is no question as to the loyalty of Portsmouth merchants. So far Mr. Winter has reported sales to the amount of \$30,000—the quota for the merchants being \$50,000. If the people at large would do as well as the merchants, the quota would have been reached and surpassed long ago.

General Chairman Simon Labold stated Friday morning that he was sure the quota would be reached. "During the past few days," said Chairman Labold, "there has been more spirit shown in the campaign and I believe that before the campaign ends (tomorrow night) we can notify the Central Victory Loan committee at Cleveland that Portsmouth and Belknap county are in the fold of loyal communities. I hope that all interested in the drive will insist on a wide distribution—that individuals will be limited up and induced to subscribe. For the wider the distribution the more able the financial institutions will be to assist in the development of the manufacturing plants when the war has prospered comes and engulfs this community."

Reports from the country precincts show that the farmers are coming to the front handsomely. They were a little late in getting started but they are making up for lost time according to Chairman Roger Selby and Lafayette Taylor.

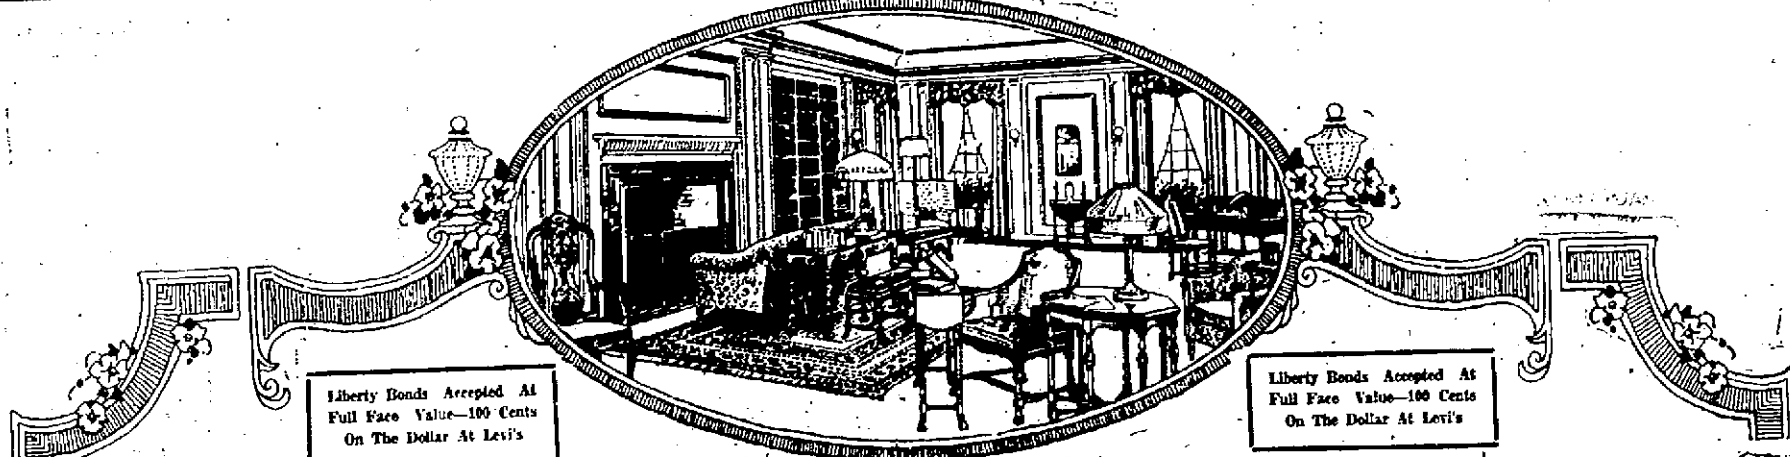

So after all is said and done, there is a feeling among the people at large that the quota will be reached and that Victory buttons will be worn quite conspicuously and quite generally in this part of the state.

For A Complete Line Of Columbia Records

With the announcement of a change of location and new manager, the Kay-Graham Co. gave out the news they would branch out into a general music store, handling all kinds of musical instruments, including a fine line of pianos and player pianos, in addition to a complete line of sheet music. With greatly enlarged quarters, they will have plenty of room for expansion. The room will be completely remodeled to meet all the requirements of an up-to-date music store.

It is further announced that beginning within a very short time now, it will be possible to have on hand at all times a complete line of Victrolas. This company placed its large plant on a 100 per cent war basis and manufactured several parts of aeroplanes. The plant is now back to manufacturing Victrolas and records. The Kay-Graham Company is to be congratulated upon securing the services of Mr. Arnold as manager. Since coming here from Cincinnati several years ago, he has stamped himself as a man of industry and judgment and has ever worked to the interests of his employers. He is a man of pleasing personality and has made a host of friends since locating in this city. Summers & Son are securing an experienced man in Warren Wood. He has been with Summers & Son for several years and will prove a worthy successor to Mr. Arnold. Summers & Son but lately secured a Victrola agency. Ever since establishing a store in this city Summers & Son have won for themselves the confidence of the public. They conduct a general music store and can that is strictly up to the demands of the times.

**ALLIES MUST  
DEAL WITH  
BOLSHEVISM**

(Continued From Page One)  
Russian Bolshevism will fall of its own weight, solely due to starvation, which it has produced, and become

the victim of the sin which it engineered. The single hope so far as one can now see for Russian Bolshevism lies in the possibility of interference from outside, which will provide food and thus abolish the terrible lesson which is being taught as the meaning of anarchy and the consequence of terror.

**GERMAN "CLUB" BROKEN**  
Looking to the German situation, it is plain that what with Bolshevism

crushed in Hungary and falling into ruin in Russia, it will be less easy for Germany to insist upon modification of the terms of peace, and re-enforce her insistence with a threat of Russian inspiration. This is what Hungary did, and probably under German inspiration. The device was momentarily successful and created a panic in Paris. It led to very regrettable concessions in the matter of Poland and it is now clear that the

**To Reduce Your Weight  
Quickly and Easily**

If you are too fat, or if your figure has become flabby and you are carrying around a burden of annoying unhealthy flesh, the cause is the lack of one, lack of oxygen carrying power of the blood and faulty assimilation of the food. Too little of food is being made into good hard tissue and too much is being turned into flabby globules of fat.

Go to Fisher and Stretch Pharmacy of post office today and get a box of these wonderful Phynola tablets; take one after each meal and one at bed time. They are pleasant to take, entirely safe and give splendid results quickly and easily. No dieting, strenuous exercising, drastic massages or appliances. Just a simple Phynola tablet four times a day and in a short time your weight is reduced on all parts of the body to what it should be.

whole scheme has failed and been exploded.

Unless all signs fail, we are on the edge of very great changes. In Russia, those who come to Paris from Petrograd and Moscow, report that in an effort to anticipate the change, Lenin and Trotsky have already laid aside a large portion of their mad project, are in fact making a desperate effort to enlist precisely the same elements that they were murdering and destroying six months ago. So far, they seem to have failed. Russia is at the moment industrially dead and economically prostrated, because confidence has been destroyed, communications abolished, and while food exists in many regions, starvation is prevalent in even more. It is still conceivable that the influence of Americans and British will avail to save Trotsky and Lenin and continue in Russia a regime which has produced the ruin which now exists. If Trotsky and Lenin can even now get possession of large supplies of food, if they can achieve the semblance of recognition by the western powers, they might escape from the consequences of their course, but if the lesson of Hungary is appreciated in the west, I think it is the common judgment of all thoughtful men here that the end of Bolshevism in Russia is within sight. Only another Prinkipo experiment, only another Smuts Mission might delay the deliverance of the Russian people from the death which has overhung them for two years.

**EPOCHAL EVENT**

The arrival of Bolshevism at Budapest marks a great moment in the history of the last six months. The collapse of Bolshevism inherent in the occupation of Budapest by the Roumanian army supplies an even greater event. Peace in Russia cannot exist until the west has made up its mind to deal with Bolshevism as well as with Germanism. The treaty of peace which we have now completed deals with the Germans, but not with the Bolsheviks. The success of the Allied policy in Hungary is the first clear promise that both the great problems can be settled before the conference at Paris terminates its labors.

**SALOONS MAY OPERATE FOR \$305 MAY 26**

COLUMBUS, O., May 8.—Attorney General John G. Price, in a ruling in the State Liquor License Commission today, ruled that saloons may operate in Ohio on Monday, May 26, the first day of the next license year. It will cost them \$305, however, so that probably the majority will not want to go

to that expense for one day's sales. Under present laws, Price ruled, applications for licenses can be made now, for which licenses for an entire year may be granted, but the licenses will be valid only one day, because on Tuesday, May 27, the prohibition amendment to the constitution is effective.

The penalty sections of the liquor license law and local option laws will be in operative beginning May 27, the attorney-general held. On the other hand, he ruled that laws against sales to minors, sales on Sunday, on election days, sales in prohibited precincts, and for keeping a place where liquor is sold in violation of law, will be operative and available for prosecution under the prohibition amendment.

It is the opinion of the attorney-general that the action against keeping a place for sale of liquor in violation of the law refers, not only to statutory law, but the constitution as well. This would make it possible to prosecute bootlegging, if a place is kept for the transaction, but it would not prevent sales, for instance, between persons on the street or elsewhere, if the point of sale is not made a regular place for the business.

Members of the state liquor license commission said they will instruct local boards to receive applications for renewals or new licenses. Boards may examine them and make up their minds as to merits of applications, but licenses may not be issued until after Sunday midnight, preceding Monday, May 26.

Applicants must pay \$5 application fee, \$100 license fee, if permit is granted, and in June they must pay half of the annual \$1000 alien tax to county auditors. Of the \$500 so paid, county auditors must return the remainder to persons entitled to them, but must keep a minimum of \$200, even if the saloon was operated only one day. This makes a total cost of \$305 to the lawful operation of a saloon for the one day of May 26.

Members of the liquor commission expressed the opinion that many par-

ticularly downtown saloons in large cities, will avail themselves of this opportunity.

## COX APPEALS TO DEMOCRATS TO DEFEAT FINANCIAL RELIEF BILL IN THE LEGISLATURE

COLUMBUS, O., May 9.—Governor James M. Cox today called to his office the Democratic members of the legislature, in an effort to align them solidly against the emergency financial relief bill for cities and schools and the Busby-Fouts highway bill on account of their tax boosting features.

"Unless you gentlemen, by solid front, impose your objection, we will drift into an era of financial chaos," the governor declared. "The rates of taxation in every sub-division will climb to heights unparalleled, and we will have made a condition of unrest at a time when our every energy and thought should be intensified in an effort to allay it."

The financial relief bill, which passed the senate Tuesday, is up for approval in the house today. Except for a few dates, it is identical with the one vetoed by the governor recently. Democratic support is needed to pass it as an emergency measure, effective in time to afford relief this year.

It authorizes popular elections on special five year tax levies, in excess of the Smith one percent law limitations, to meet current and previous deficiencies.

**Has His Own Plan**  
Financial relief, the governor admitted, is imperative, but he advocated instead his own plan, the Hopple bill, whereby sub-divisions would be authorized to meet their deficits by issuing certificates of indebtedness for not longer than five years in anticipation of sufficient revenues from new sources, as incomes and inheritances, to pay them off at maturity. If enough new revenues are not forthcoming, the Smith limitations may be exceeded at the end of five years.

"Property is standing all the tax it can bear now," Governor Cox said to members of his party. "I contend that the rate should not be increased and that the funds essential to pay accumulated debt must be procured in the main by levying a tax on the prosperity of the state."

Every sub-division can get relief without increasing taxes, under his plan, the governor contended, adding that no banker has questioned the soundness of his proposal. He said it would tend to bring owners and builders the encouragement they need.

The Busby-Fouts highway bill has passed both houses and now is in conference committee for adjustment.

**Objectionable Clause Not Removed**  
The governor said that, although it had been agreed by the senate highway committee, after conference with him, to take out of the Busby-Fouts

bill the proposed two mill levy to which he objected, this was not done. It is a levy outside the Smith law limitations which county commissioners might impose after vote of the people. On the basis of the 1918 tax duplicate of Ohio, Mr. Cox pointed out, the two mills would amount to \$18,136,326.

The half mill state levy of the new highway bill, he said, would yield \$1,534,081 and the one mill levy of the same bill to enable counties to meet state aid, \$3,068,163. Each of these levies is outside the Smith law limit. In addition, he continued, there will be \$8,420,842 from the federal government and \$2,121,273 from automobile licenses.

**A Staggering Total**  
This makes a total of \$39,139,687," the governor said. "Now bear in mind that additions may be made to this. First, the graduated automobile license proposal, which, by the way, is a suggestion, would yield, instead of \$2,000,000, an amount estimated from \$5,000,000 to \$8,000,000. Therefore, in our calculations, let us add \$4,000,000. That would bring the total to \$43,139,687. Within the 15-mill limitation counties and townships can spend \$10,000,000, creating a total of \$53,139,687. The 1919 duplicate, upon which assessments will be made, will be easily six-percent in excess of the 1918 duplicate, so that an additional six percent must be calculated in consequence, making in all, the staggering total of over \$56,139,687, which can be disbursed by the tax spreaders in the state during 1919 for roads only."

**Inflation of Prices**  
Governor Cox criticized passage in the house of the Drury bill, without committee hearing, to abolish the state highway advisory board, which has concurrent jurisdiction with the highway commissioner in awarding contracts and determining location of roads for state aid.

He then said: "If this program is carried out, inflation in prices will be inevitable; construction will be congested; corruption is more than a possibility, and the good roads movement, highly essential to our social and industrial development, will have been set back 20 years. The wildest fancy has run riot. Every precaution of the past has been abandoned. The tax payers point of view has been ignored, noted."

SUITS

The slender, willowy silhouette and a certain dignified plainness and simplicity. That's the spirit of our suits. And they are absolutely unmatchable in value. The textures are the most carefully chosen—newer wear serges, gabardines, tricotines, jerseys. Point twills and other popular and serviceable weaves. Frequently in each ultra-stylish suit one finds quality sacrificed to style. Not so in these. And the finish is as careful as the design is artistic.

CAPE, COAT, DOLMAN

Right at the present you have the best opportunity to select very practical and attractive wraps at exceptionally modest prices. The fashioner's art is shown exclusively in considerably higher priced models. The line is reproduced in garments of equal beauty within the reach of the woman with an eye for economy. Straight line belted coats, handsome circular capes, jaunty hilly length and full length capes and dolmans. No end of variations and the most astonishing fashion innovations are shown, creating interest among style devotees.

DRESSES

Dresses for every day business wear as well as for afternoon and evening occasions. Fashionable materials like fine French serge, silk poplin, taffeta, satins, soft crepe, de chine and georgette. Here are interesting innovations in tier and tunic models, many beaded effects, gracefully draped and dignified buttoned and belted tailored dresses. We can only hint at the style variations because there is such a great number at the prices mentioned.

## Smartly Styled Suits for Men And Boys

Our suits are beyond a doubt the most extraordinary values offered. Such distinctive styles, such exclusive materials, such real tailoring could ordinarily be matched only at much higher prices. It is our purpose to offer these garments very close to their constructive cost, maintaining our value supremacy. Styles may come and styles may go, but Blue Serge is always a mother's favorite suit for her boy. Stylish belted or waist line models, just the kind to your liking.

Dear Dolly—Please inform me if you can. Is there any place in Cincinnati where a man can go to and be shipped to the west to work. If so where is it located in Cincinnati?

I do not understand your question. Do you mean is there a place in Cincinnati where one can go to work and have their way paid to some western point. If so, I do not believe there other than the Free Employment Office the same as we have here in the Turkey building. During the war when laborers were scarce the farmers out west offered to pay the railroad fare of men to help them harvest, but since there are so many men out of employment it will not be necessary to import men to any part of the country.

My Dear Miss Wise—Can you please tell me when the boys of the 5th Band 10 Grand Division will get home and where they are now located. ANXIOUS MOTHER. There's no such designation in the American Army or Grand Division. The Motor Transportation Corps is sometimes called by that name. I do not know when they will get home.

Dear Miss Wise—As I am feeling pretty blue and coming to you for a little advice. You no doubt will think this silly, but to me it's serious. I don't know why it is, I can't get a girl. Although I would not take a prize at a beauty show, I could be a good looking. I dress nice and try to be as friendly as possible to everyone I meet. But for all that I don't seem to gain much headway with the fair sex. And you know, Miss Wise, a fellow can't really loosen up sometimes when it seems that everywhere you look you see boys and girls talking and laughing and having a good time. LONESOME. Stand back girls, don't crowd, until he sends in his name and address and maybe a snapshot of himself. Sure, I'll let you all see it.

## SOCIETY

Mrs. Charles Zull of Offshore street, is home from Wheelersburg, where on Thursday night she attended the play "Princess Chrysanthemum," a Japanese opera given in three acts by the pupils of the Wheelersburg High School. It was given under the direction of Miss Gertrude Schmidt assisted by Miss Elizabeth Dolbear. Every one is cordially invited to attend all services held at the church at 8:35 every Sunday evening. The next meeting will be in charge of Mario Rugg, who is a member on board the Washington ship.

You can readily identify the Victrola by the famous Victor trademark, "His Master's Voice." It is not a Victrola without the Victor dog. This trademark is on every Victrola. It guarantees the quality and protects you from inferior substitutes.

The word "Victrola" is also a registered trademark of the Victor Talking Machine Company. It is derived from the word "Victor" and designates the products of the Victor Company only.

As applied to sound-reproducing instruments, "Victrola" refers only to the instruments made by the Victor Company—the choice of the world's greatest artists.

Look inside the lid—insist upon seeing the famous Victor trademarks. On the portable styles which have no lid, the Victor trademark appears on the side of the cabinet.

# The Highest Price

According to what is considered to be an authentic record, Portsmouth and Scioto county contributed the lives of 87 of her sons in the cause of world democracy. Of that number, many sacrificed their lives on the Flanders front—others died while preparing their bodies for overseas service in various cantonments—others were drowned—all were heroes.

## AND ALL DIED FOR YOU!

They died in a just and righteous cause—their lives sacrificed upon the altar of their country that you might enjoy freedom and the pursuit of happiness. They went to their eternal rest like all heroes—without a murmur of complaint—with a salute for the flag they all loved so well. THEY PAID THE HIGHEST PRICE. What are you doing to reverse their memory? Are you one of those who have put off buying VICTORY LIBERTY BONDS—just through carelessness or thoughtlessness? You intend to buy, you say—well, then, you'll have to hurry, for the campaign ends tomorrow—Saturday. DON'T PUT IT OFF—PUT IT OVER.

## TWO OF SCIOTO COUNTY LADS—CHUMS THEY WERE THEY GAVE UP THEIR LIVES ON FLANDERS FRONT

Their photographs are reproduced on this page—both chaps had splendid prospects—both were popular, vigorous and strong—but they went to their death the victims of Hun bullets. They are now sleeping among the poppies in Flanders—their parents and friends wondering if any greater sacrifice could be made. These boys had a wide acquaintance—may their valorous deeds ever remain sacred to the memory of their friends and relatives. THEY DIED FOR US ALL. THINK, FOLKS, IT'S NOT ASKING MUCH OF YOU TO BUY BONDS—TO GIVE OF YOUR MONEY—THEY GAVE THEIR LIVES—and "no greater love hath any man than this, than he lay down his life for his friends."

DO YOU THINK YOU ARE MAKING A SACRIFICE TO BUY BONDS? WHEN YOU MAKE YOUR SUBSCRIPTION TOMORROW, THINK OF WHAT CHARLES JEFFORDS AND ANTHONY BILLIAN SACRIFICED—THEN BUY!

## ALL EYES SHOULD BE EXAMINED

W. E. believe the day is coming when everyone's eyes will be examined by an Optometrist. Few people at present attach sufficient importance to eye strain. Cases are common where people have fought eye strain all their lives, and didn't know it. That shouldn't be. Finding out early about your eyes is important. Our best care and attention await you.

## CUT THIS OUT

Old English Recipe For Catarrh, Catarrhal Deafness and Head Noises.

If you know of some one who is troubled with Catarrhal Deafness, head noises or ordinary catarrh cut out this formula and hand it to them and you may have seen the means of saving some poor sufferer perhaps from total deafness. In England scientists for a long time past have recognized that catarrh is a constitutional disease and necessarily requires constitutional treatment.

Secure from your druggist 1 ounce of Eucalypti (Double Strength). Take this home and add to it 1-1/2 pint of hot water and a little granulated sugar; stir until dissolved. Take one tablespoonful four times a day. This will often bring quick relief from distressing head noises. If the disease may be driven towards the lungs which is equally dangerous. The following formula which is used extensively in the damp English climate is a constitutional treatment and should prove especially efficacious to sufferers here who live under more favorable climatic conditions.

## IMPROVED UNIFORM INTERNATIONAL SUNDAY SCHOOL LESSON

By REV. P. B. FITZWATER, D. D., Teacher of English Bible in the Moody Bible Institute of Chicago

Copyright, 1918, by Western Newspaper Union

LESSON FOR MAY 11.

SIN AND ITS CONSEQUENCES.

LESSON TEXT—Genesis 2:1-4. GOLDEN TEXT—The wages of sin is death; but the gift of God is eternal life through Jesus Christ our Lord.—Rom. 6:23.

DEVOTIONAL READING—Psalm 51:1-4.

ADDITIONAL MATERIAL—Rom. 1:28.

PRIMARY TOPIC—Disobeying Our Heavenly Father.

JUNIOR TOPIC—How Disobedience Separates Us From God.

INTERMEDIATE TOPIC—Destructive Power of Sin.

SENIOR AND ADULT TOPIC—The Nature and Results of Sin.

An outlook upon the world proves that man is not what he should be. Then, too, apart from gospel influence there is no sign of improvement. The only way of accounting for the discrepancy between what man is and what he should be is by the Fall. This is the way that the Bible accounts for it. The introduction of sin is the answer.

1. The Temptation (Gen 3:1-6).

Man possessed a free will, in the exercise of which he turned away from God and his commandment. This was done at the instance of the devil working through the serpent. He did not appear as he really was, but in disguise. The method employed was (1) finding the woman while alone; (2) insinuating doubt into her mind as to God's word and love. At his suggestion she began to believe that God did not mean what he said, and that he was unkind in placing restrictions upon them. In this the devil succeeded God, even accusing the Almighty of jealousy and fraud. (3) Appeal to innocent appetite. (4) She gazed upon the fruit which God had forbidden. Looking soon began lust. (5) She lusted after that which God had forbidden. That which God has forbidden should not be looked at lest the flesh should lust for it.

2. The Fall (3:6-7).

From losing its innocence was a short step. This act of disobedience has brought on all the world's woe and misery. Eve not only disobeyed, but involved Adam in her sin. Aspiring to be gods, they became the slaves of sin. They came to know good and evil, by and experience. They knew sin without the power to free themselves from it.

3. The Consequences of the Fall (3:8-24).

(1) The disturbed relationship with God (v. 9, 10). The familiar intercourse which man enjoyed with the Almighty was marred and broken by sin. Sin makes life intolerable in the divine presence. Adam and Eve not only hid from God's presence, but Adam began to make excuses and even laid the blame on God.

(2) The serpent was degraded and henceforth became a type of sin and Satan (v. 14; cf. Num. 21:9; John 8:44; Rev. 12:9). This doom was pronounced without trial. In the case of man it was not so.

(3) The undying enmity between the two seeds (v. 15; cf. John 8:44-45; Matt. 23:33). The antagonism thus begun reached its climax in the crucifixion of Christ. Satan's seed has been ever since endeavoring to destroy the Lord's work and his workers.

(4) The ultimate victory of the woman's seed (v. 15). Satan harassed the woman's seed; bruise his heel, but finally the stroke was made which crushed the serpent's head (John 12:31; Heb. 2:14; 1 John 3:8). This was the first gleam of the glorious light of the gospel of Christ. The victory was marvelous, but the cost was infinite. (Esa. 53; 2 Cor. 8:9-12).

(5) Judgment upon the women (v. 16). This relates to her as a wife and mother; also to her subordination to man. This is God's decree, and all efforts of freeing one's self from it are fightings against God.

(6) Man's new relationship to the earth (v. 17-19). The earth was cursed on his account. Because of the rank growth of thorns and thistles man must make an increased effort to exist. Man with his sinful nature would be in a bad state without the necessity of toil (Rom. 8:19-22).

(7) Death (v. 19). This includes physical and spiritual death—both the result of sin.

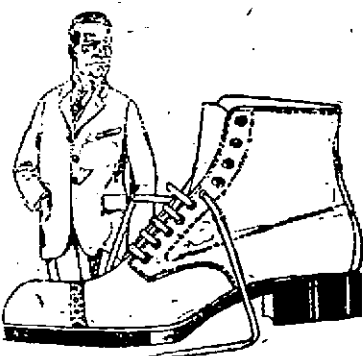

(8) Expulsion from the garden (v. 24). This was an act of great mercy. To have partaken of the tree of life and live forever in a sinful state would have been intolerable.

Exercises are Necessary.

If a man does not exercise his arm he develops no biceps muscles; and if a man does not exercise his soul he acquires no muscle in his soul, no strength of character, no vigor of moral fiber, no beauty of spiritual growth.—Henry Drummond.

Sermon Crowded Out.

Go to that little church of yours and quit your hankering for the big music and stinging and pomp and splendor of the large churches in the city. By the time they get through with their preludes and laterals and de-ludes there won't be much more than a sermon.

## Where Can I Find Relief From Itching, Terrifying Eczema?

This Question is Ever on the Lips of the Afflicted

Eczema, Tetter, Erysipelas, and other terrifying conditions of the skin are deep-seated blood diseases, and applications of ointments and washes can only afford temporary relief, without reaching the real seat of the trouble. But just because local treatment has done you no good, that is no reason to despair. You simply have not sought the proper treatment, that is within your reach.

You have the experience of others who have suffered as you have to guide you to a properly efficacious blood and skin disease. No matter how terrifying the irritation, no matter how unbearable the itching and

burning of the skin, S. S. B. will promptly reach the seat of the trouble and forever root from the blood every trace of the disease, just as it has for others who have suffered as you have. This grand blood remedy can only be used for more than fifty years, and you have only to give it a trial to be restored to perfect health.

Our chief medical adviser is an authority on blood and skin disorders, and he will take pleasure in giving you such advice as your individual case may need, absolutely without cost. Write today, describing your case to Medical Department, Swift-Speidel Co., 252 Swift Laboratory, Atlanta, Ga.

In the graduating class '94, it was announced there would be thirteen girl graduates and two boy graduates: Alice Catherine Brown, Wilhelmina Buebert, Elizabeth Grace Cross, Ruthanna May Halderman, Anna Benson Kieff, Robert Knowles, Grace Carroll McCulloch, Nellie McFarland, Joseph Leonard Meyer, Lillie B. Oakes, Anna May St. Clair, Julia May R. Tappan, Rose E. Wendelken.

Miss Anna Evans gave a musical recital, which was a successful affair.

Miss Julia Murphy returned from La Salle, Mass., where she was attending school.

The Alumni announced that they would have their annual celebration at Grand View Park, New Boston.

The funeral was held of the late Mrs. Maria L. Gates, widow of the late Erasmus Gates, 505 Court street.

Captain James P. Jack was made secretary of the local Board of Trade.

The Commercial Gazette, in commenting upon the appointment, spoke complimentary of Captain Jack.

Mrs. Goretz was the guest of her daughter, Mrs. S. S. Halderman, to attend the commencement exercises.

The Cincinnati district freight committee United States Railroad Administration, 50 Carey Building, Cincinnati, is giving serious consideration to the following changes in freight rates and the matter is assigned for hearing on May 14.

Revision of class rates between Portsmouth, Ohio and points in Central Territory.

PRESENT RATE: At present time Portsmouth is grouped in the so-called Portsmouth, Ashland and Ironton District.

PROPOSED RATE: Establishment

of Portsmouth as an independent base point.

NAME OF PETITIONER: Portsmouth Board of Trade.

ARGUMENT FOR CHANGE: Without suggesting any departure from the principle of the Disque scale, we submit that the situation presented at Portsmouth from every consideration of volume of traffic and commercial and competitive conditions entitles it to the status of a basing point without reference to Ironton, Huntington or any other producing district. As we have said this situation has been the

Blood Purifier and Real Spring-Time Tonic

Take it yourself and give it to the children. It's a purely vegetable tonic that acts gently, yet effectively, driving out all poisonous waste matter and making you feel better right away. It's good for men and women and their families, and feeling like regulating their system each spring with this safe, reliable family remedy.

source of serious discontent among the Portsmouth manufacturers, for many years and that feeling no doubt continue to exist until some more equitable adjustment of rates is made. We believe that the authority vested in your Committee is ample warrant for such an adjustment without forcing an appeal to the Commission, which we are sure you will agree should be avoided if possible. We hope that in the light of all of the attendant circumstances your committee will give its early approval to the establishment of Portsmouth as a basing point independent of Ironton and Ashland which now enjoy rates adjusted substantially upon actual mileage and therefore will not be affected; and independent of Huntington, West Virginia, which now has an advantage unwarranted by its geographical location and therefore cannot consistently complain of a readjustment which will give it only what its location fairly entitles it to. Such a readjustment cannot possibly work an injustice to any of the points involved, but will remove the injustice here complained of and that without any appreciable disturbance of the carrier's revenues.

Docket No. 101 dated April 11, 1919, is slated for hearing on May 12.

Publication of reciprocal switching rates at Portsmouth, Sciotoville, Hillsboro and Chillicothe, Ohio of 10c per ton, minimum 25 tons per car, File 850.

Announced for hearing Monday May 12. Docket No. 100, dated April 11, 1919: Advance in rates on Brick (Broken), Clay (Crude or unground) Clay Calcinced (Crude or unground) Limestone, Sand Rock and Shale, carload, minimum weight marked capacity of car, except that when car is loaded to cubic or visible capacity actual weight will apply between points on the Portsmouth Branch of the Baltimore and Ohio Railroad CANCELLED-HAVING BEEN WITHDRAWN BY APPLICANTS.

Docket No. 102, dated April 11, 1919, Rates on Clay, common or fire, carload, minimum weight marked capacity on

car, except when car is loaded to cubic or visible capacity, actual weight will apply, between stations on the Chesapeake and Ohio Railroad in Kentucky, rates ranging from 35 cents per ton to 85 cents per ton, according to proposed short haul rates on clay between points on this road are illogical and inconsistent and in some cases, violate the Fourth Section. CANCELLED-HAVING BEEN WITHDRAWN BY APPLICANTS.

This committee is giving consideration to the following changes in freight rate, and the matter is assigned for hearing on May 10th, 1919.

Interests desiring to submit their views in writing are invited to do so not later than the date above mentioned.

Rate on Flaming Stone, Carloads, also crushed stone, Hamilton, Wellston and Jackson.

PRESENT RATE: 70c per net ton on crushed stone and 60c per net ton on Flaming Stone, per Hocking Valley ICC 1743-44 ICC 1732.

PROPOSED RATES: To Wellston 40c and to Jackson 50c per net ton of 2000 lbs.

NAME OF PETITIONER: Hocking Valley R. R.

ARGUMENT FOR CHANGE: The Puritan Brick Company of Hamilton has arranged to quarry stone on their property at that point and request that rates be published to Jackson and Wellston on an equitable basis. The D. P. and I. in their ICC 314 Tariff No. 1169-A, publish rate on crushed or flaking stone, carloads from Hamilton, Ohio to Wellston, Ohio at 40 cents per net ton and to Jackson, Ohio 50 cents per net ton. The mileage from Hamilton to Wellston, Ohio is 13 miles and to Jackson, Ohio is 18 miles. The mileage from Hamilton, Ohio to Wellston, Ohio is 3 miles and to Jackson, Ohio 12 miles. The mileage being the same, the rates on stone from Hamilton, Ohio should be higher.

### Arrive At Sherman

Among the large number of soldiers who make up the 38th Ammunition Train which arrived at Camp Sherman, Wednesday, are the following Portsmouth boys: Bruce Thomas, Charles Douglas, Harry Brandel, Drew Leonard and Simon Lehman; Ned Ron Malott, Howard Everling, Fred Smith and Ora Wells, of New Boston. Relatives of the boys received word Wednesday night and today that they were at Camp Sherman awaiting discharge and that they expected to be home in less than a week.

### Mittendorf Discharged

Stanley Mittendorf, son of H. H. Mittendorf of South Webster, was discharged from the service at Camp Sherman Wednesday and he arrived home Wednesday night. He was overseas eight months. He went to France with the 5th Division and was later transferred to the 33 Division with which outfit he returned. Mittendorf was on his way to the front line trenches when the armistice was signed. Raymond Mittendorf, also a son of H. H. Mittendorf, was discharged from the service three weeks ago. He was in the motor transport corps.

## He's Watching This Town!

HE RECALLS THAT WHEN HE LEFT THE PEOPLE CROWDED AROUND HIM AT THE N. & W. DEPOT AND BID HIM GOD'S SPEED. HE RECALLS THAT MEN AND WOMEN CHEERED AS THE TRAIN PULLED OUT, HEADED FOR CAMP SHERMAN. HE TOLD HIS COMRADES THAT NO MORE PATRIOTIC OR LOYAL PEOPLE LIVED THAN RIGHT HERE IN THE CITY OF PORTSMOUTH.

### NOW HE'S BACK AND EXPECTS YOU TO MAKE GOOD

He knows you bought the other bonds—but he will keep watching to see if you are going to stick and hang like he did when he went after the Heimies. He'll take off his hat and whoop 'er up if the city and county goes over the top in the great bond drive that ends tomorrow night. He is keeping his eyes open—looking to see that Liberty Loan Button on the lapel of your coat. If you are not wearing one don't prate to him about the love of flag and country—he knows all about camouflage—you can't fool him.

## SPORT SALAD

NEW YORK, May 9.—The Willard-Dempsey heavyweight championship bout was the topic of discussion among Eastern fight followers during the past twenty four hours. While there is evidence of a wide difference of opinion regarding the outcome, there is no record of wagering at this time.

In fact, those who take more than a passing interest in ring affairs find it difficult to reconcile the idea of a heavyweight championship battle with the twelve-round contest which it is proposed to stage on the shores of Lake Erie. There was much thumbing of light records, books and other data on the point, and it was the consensus of opinion that it was a pugilistic innovation which required time to assimilate.

The Cincinnati-Chicago game scheduled for Thursday was postponed on account of rain. Alexander was to have worked for the Cubes.

## WRITTEN IN THE BOOK

THE unfolding of the fact that the German high command kept a complete record of American operations in France, at the same time elaborating thereon with measurement and judgment of the fighting ability of our troops is not going to create more than a passing interest—it is notorious that was the Hun's way.

It is of interest, however, to know the estimate of the American soldiers and his views thereon. From the record it is plain the Hun did not approve of American way, though his guess as to the American fighter displays shrewdness. The Hun didn't like the American because he would not battle strictly according to rule—he was always doing something unexpected and, of course, not being down in the military rules, it was so annoying. Then, too, "doughboy" hadn't a deep and solemn conviction of duty. Fighting to him was a good deal of a sport and he acted like a sportsman; he'd do things just because he wanted to, or because there wasn't anything else for him, except lie in a trench and he didn't like that sort of business. That made him do most surprising things. Then he had a way all his own of doing things, which also made a heap of unnecessary trouble in getting out of his way. A German force might be behind and on both sides of a swamp and command it with artillery. Now the French and the English would attack and so the Kaiser could thin his line about the swamp and thicken it at other points where it might be to the greatest advantage. But he couldn't do that if the Americans were in front of the swamp, just because you couldn't tell what they were going to do. May be they might get tired of lying around, may be the flies might annoy them. So up they get and attack. Some way they would find a way to get across that swamp and they would go fighting around it too.

The record also set forth the five divisions the German high command considers best. At the head of these were the Rainbow and the Marines and in the roll was Ohio's own 37th. Also does it put it down that the boys from the country are better fighters than those from the cities and those from the west tougher customers than those from the east.

## THE MELTING POT PRODUCT

NEW York has given a genuine American welcome to a number of divisions that have returned from overseas, but never such a one as it did to the 77th Tuesday. May be it did not exceed others in enthusiasm, nor in the throngs that came out to "see the boys march by," but it was different in crowds and in the feeling. For in all the country there is nothing like the 77th, it being the only troops raised in one city and maintained as an entire unit through the war. There wasn't a member in it other than a resident of New York and it was drawn entirely from the progeny of emigrants. The East Side contributed to it the sons of fifty different races, speaking as many different dialects and carrying with him in freshness the speech and manners of their parents.

The division saw considerable service and, though for a time it was regarded by the Germans as the poorest white troops facing them, experience increased its efficiency and exceedingly large proportion of its officers won honors for distinguished conduct, while quite a number of its men were awarded crosses for especially noteworthy deeds of bravery.

## HER FATAL DAY

THIS May 8th is the anniversary of the day the Hun torpedo was fired, the echo of which traveled around the earth and changed the fortunes of emperors, kings and princes and the destinies of nations, heralding the downfall of some and the rise of others.

On this day and date the Hun perpetrated the incredible atrocity and blunder of sinking the Lusitania. For a moment the heart of a nation stood still at the shock of such an appalling, such an unthinkable tragedy, then it began to smoulder with the desire for judgment that should be as terrible as vengeance, and the doom of the Germany of night and conquest was sealed.

## HE OUGHT TO KNOW

"I have done my best; I think it a good peace"

Those brief words dispose more finally of the quality of the peace terms handed out yesterday, than do the columns of chatter afflicted on an eager and anxious world by the Paris correspondents.

For were they not spoken by Clemenceau, France's greatest statesman and most ardent champion? He would not think the

peace good if it were not good for France and being good for France it must be good for all the earth besides. France suffered tenfold more from war than all the other nations combined, she expected more, as she had a right to out of peace, than all the other nations.

Heartily, for France's sake, are we glad that her sharpest eye and keenest judgment says it is a good peace. About her has grouped most of the sentiment of the war. In helping her we were serving an ideal. It is well for the people that sympathy and ideal be ministered to.

Villa has taken to marauding and murdering again on a large scale. Why would it not be a good idea to send the Rainbow division down with orders to bring him in, dead or alive?

A number of Bolsheviks have been arrested in several towns. That's all well enough, as preliminary, but the sentence is the only thing that counts.

## THE WISHING PLANE

What was in the treasure box? Jack and Jane could hardly wait until Captain Bold's men had opened it. And we might just as well tell you that Ladydear and Captain Brave and Captain Bold and all the other big folks were excited, too.

It was quite a job to open the box. The men on the submarine had to

of gold and silver, countless necklaces and rings and bracelets, each one more beautiful than the last, and bags and bags of gold made everyone gasp. The children were afraid to touch the treasure for a minute, fearing that they were only dreaming, and that it would go away if they touched it, but when Captain Brave put his hands in the chest and stirred up the jewels like the grocer does the beans in a barrel, Jack and Jane and everybody else picked out the things they wanted to look at first, and in less time than it takes to tell, everybody was wearing all the jewelry that they could get on.

Jane was looking at herself in the glass. She had on a necklace of pearls that reached almost to the floor, so many rings and bracelets that she could hardly lift her arms, and a crown on her head so heavy that she had trouble holding up her head—to say nothing about its being so big for her that it was constantly slipping down over one ear.

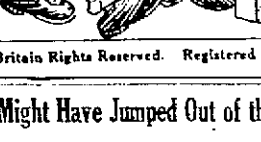

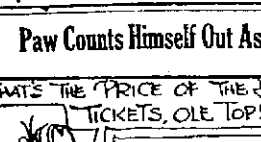

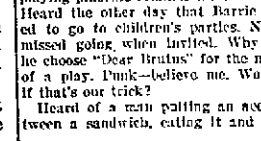

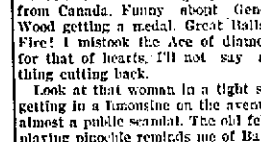

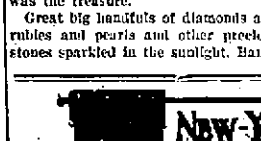

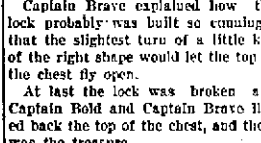

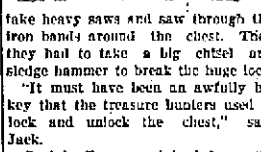

Ladydear was wearing jewels more gorgeous than the queens, that Jack and Jane had seen in the movies and in the picture books at home. Everybody else was wearing rings, chains, and all sorts of beautiful things.

Even Bold had so much jewelry on him that he could hardly walk. He looked for all the world like a big pin cushion with his white fur covered with jewels. He, too, must have been proud of himself, for he was standing in front of the glass, wagging his tail at a great rate.

After everybody had seen all of the jewels and had worn loads of them and had tried to guess how much money there was in the bags, everything was put back in the chest.

"Now the next question is, how are we going to divide them," said Captain Bold.

I will wait until tomorrow to tell you how they divided the treasure. (Copyright, 1919)

## NEW-YORK-DAY-BY-DAY

NEW YORK, May 9—Thoughts while at the bridge table in a Manhattan club: Distinguished fellow with monocle is Arthur Stringer just down from Canada. Funny about General Wood getting a medal. Great talk of fire! I mistook the Ace of diamonds for that of hearts. I'll not say anything cutting back.

Look at that woman in a tight skirt getting in a limousine on the avenue—almost a public scandal. The old fellow playing pinochle reminds me of Barrie. Heard the other day that Barrie forced to go to children's parties. Never missed going when invited. Why did he choose "Dear Brutus" for the name of a play. Think—believe me. Wonder if that's out yet?

Heard of a man putting an ace between a sandwich, eating it and calling it a rule after playing the wrong ace down at the Whist Club. Why do men wear knee caps? Hope I'm insured for this club. Hope I'm insured for this club. Good thing to refer to. Heard today that two young debutantes were caught in a raid on a hope dealing doctor's office. Gee, I've miscounted the trumps.

That was a funny speech Stephen Leacock made at the Author's League banquet. Mrs. Mary Roberts Rhoads looked sweet in evening clothes. Liked to hear Kathleen Norris talk. Don't hesitate to talk about being hungry when she was a free lance reporter. No wonder she writes human stuff. I must put the cards at the left of the dealer and I won't get mixed up.

## WHO'S WHO IN THE DAY'S NEWS

### LEON BOURGEOIS

Leon Bourgeois, one of the elder statesmen of France, was placed by the French government many months ago at the head of a foreign office committee to deal with the League of Nations. His greatest claim to represent France on the committee appointed to deal with the problem of the league of nations is to be found in his long service in connection with the building up of the policies of The Hague. His experience at 77th Avenue should stand him in good stead, but perhaps an even more important qualification is his excellent knowledge of social conditions both in France and abroad.

M. Bourgeois was born in Paris in 1841. He is a lawyer and a Radical. He has become a specialist in all questions of international or inter-party arbitration or compromise. In 1888 he entered political life, defeating Boulanger by an enormous majority. He has always been one of the men who could be depended upon in times of crisis and until a few years ago president in search of a cabinet always turned to him. In the grave situation which arose after the attempt on President Loubet's life he used his powers of managing men and succeeded in forming a ministry when all others had failed.

armed white fluted eating places after theatre in evening clothes. War did it. Why isn't bacon in real life the way it is in the advertisements? Gosh, but I'm hungry. The poor fish, why glare at me. I couldn't take him out. Understand a canteloupe costs two dollars apiece at Fifth Avenue hotels. Jessie James was a piker. Those Russian blondes! The women wear are snappy. Feel sorry for the fellow drinking Scotch. Home life is terrible. Wife practices aesthetic dancing in the house and is always leaving champagne stubs around to burn holes. Thank heavens, it is the last rubber.

Young Jack McElwain, so the rumor goes, is to pierce upper Fifth Avenue with another giant hotel. It will be in the neighborhood of the hotel center in which are located the Plaza, St. Regis, Gotham and the Hotel Astor. The man who used to be a riding instructor at DuPont's can look out of his window at the Biltmore and see the hotels Commodore, Belmont, Manhattan and Murray Hill. To the north was the Ansonia out of his vision and also the Griswold at New London Conn. and the Bellevue at Belleair, Fla. Bowman is the hotel King of the world, a youthful monarch who has yet to see his 40th year. He has the spirit of a boy. In business he is severe and punctual in everything. Away from his office, and I have been with him away from his office, he is liable to scuffle with you, box with you or play leap frog. He came from Saratoga 20 years ago without a dollar. He has visions and many believe his chain of hotels will spread to London, Paris, Brussels, and to the Orient. Nothing seems impossible for him. When you believe he has built just one too many large hotels—you wake the next day to find he has contemplated another larger and he fits them all. His hotel investments run up to nearly \$75,000,000.

Tin Pan Alley is grinding out prohibition songs and they are finding a ready sale on Broadway. The most popular one seems to be "How are you going to Wet Your Whistle. When the Whole Darn World Goes Dry?" It was written by Percy Wenrich, who writes song psychology like most city editors study current events. He has never written a failure and from a poor boy he has become one of the wealthiest young men in New York.

## CHINA REFUSES TO SIGN TREATY; AUSTRIAN NAVY TO BE WIPED OUT

### Two U. S. Planes Complete First Leg Of Flight; One Is Disabled

HALIFAX, N. S., May 9.—Two of the American navy seaplanes, the NC-4 and the NC-3, arrived here at eight o'clock last night (7 o'clock New York time) thus finishing successfully the first leg of their trans-Atlantic flight.

HAD "REGULAR OHIO" LUCK  
CHATHAM, MASS., May 9.—The naval seaplane NC-4 was towed into Chatham harbor by a motor boat from the Chatham aviation station about 5:30 o'clock this morning. The NC-4 was first sighted by a guard at the station. The members of the crew of the seaplane reported that they were comfortable and that they had passed the night on a calm sea. Only one engine of the seaplane was in service, the other having been disabled on the trip from Rockaway.

READY FOR SECOND LEG  
HALIFAX, May 9.—Conditions early today were favorable for the start of the second leg of the flight of the American hydro-airplanes NC-3 and NC-4. The day was clear and there was a brisk westerly wind. The crew of the planes which started from Rockaway yesterday and reached this harbor last night, called for a landing late today at Trepasser bay, N. E., a distance of 400 miles.

OFFICIALS ELATED  
WASHINGTON, D. C., May 9.—The successful flight by the NC-4 at 11 o'clock brought much satisfaction to officials here and officers waiting with keen interest the completion of the flight today by the NC-3. The flight by the NC-4, which will be the beginning of the trip across the Atlantic. The successful confidence also is expressed that the ultimate goal of the flight will be reached.

WILL TRY IT AGAIN  
CHATHAM, MASS., May 9.—The hydro-airplane NC-4 which was towed into the naval air station here today, after having been compelled to land yesterday because of engine trouble while on the first leg of the trans-Atlantic flight, probably will resume the trip to Halifax tomorrow, according to naval officials. Two of her four engines were out of order, but authorities expect to be able to make repairs quickly.

### Will Germany Sign Treaty?

VERSAILLES, May 8.—(By the Associated Press)—The question whether Germany will sign the treaty or not, is the pressing one of the hour. It is impossible as yet to gain an indication of the attitude of the German plenipotentiaries here, but information coming from German sources goes to show it is quite possible the German plenipotentiaries, government is considering its fate if it should accept such a drastic treaty. It may choose to refuse to sign the treaty and go down in a blaze of patriotic glory. According to this information, the greatest shock to the Germans was given by the formula establishing the frontier of Poland, giving as it does, a great part of West Prussia and a considerable seacoast to Poland, in addition to large coal fields in Upper Silesia. When the German plenipotentiaries left home, they expected to hear rather more moderate proposals regarding the Polish frontier and Danzig. The delegates also question the possibility of Germany paying reparations to the extent laid down by the treaty and they doubt whether they should sign clauses which they are said to consider impossible to fulfill. They object also to the surrender of their entire mercantile fleet, arguing that this would force them to pay an additional indemnity to England in freight for "every ton of raw material imported, manufactured and exported under the virtual British monopoly of ocean tonnage which they assume would soon follow the elimination of the German mercantile fleet."

### FRENCH SENATOR IS ACQUITTED ON CHARGE OF DEALING WITH FOE

Captain Georges Jile Ladoux, former chief of the intelligence bureau of the ministry of war, a co-defendant with Humbert, was acquitted. Pierre Lenoir, still another of the co-defendants, was sentenced to death, while William Douchez was convicted and sentenced to five years in prison.

### COX APPEALS TO DEMOCRATS TO DEFEAT FINANCIAL RELIEF BILL IN THE LEGISLATURE

COLUMBUS, O., May 9.—Governor James M. Cox today called to his office the Democratic members of the legislature, in an effort to align them against the emergency financial relief bill for cities and schools and the bus-highway bill on account of their tax boosting features. "Unless you gentlemen, by solid front, impose your objection, we will drift into an era of financial chaos," the governor declared. "The rates of taxation in every subdivision will climb to heights unparalleled, and we will have made a condition of woe at a time when our every energy and thought should be intensified in an effort to allay it."

The financial relief bill, which passed the senate Tuesday, is up for approval in the house today. Except for a few dates, it is identical with the one vetoed by the governor recently. Democratic support is needed to pass it as an emergency measure, effective in time to afford relief this year. It authorizes popular elections on special five year tax levies, in excess of the Smith one percent law limitations, to meet current and previous deficiencies.

Has His Own Plan  
Financial relief, the governor admitted, is imperative, but he advocated instead his own plan, the Hopple bill, whereby sub-divisions would be authorized to meet their deficits by issuing certificates of indebtedness for not longer than five years in anticipation of sufficient revenues from new sources, as incomes and inheritances, to pay them off at maturity. If enough new revenues are not forthcoming, the Smith limitations may be exceeded at the end of five years.

"Property is standing all the tax it can bear now," Governor Cox said to members of his party. "I contend that the rate should not be increased and that the funds essential to pay accumulated debt must be procured in the main by levying a tax on the prosperity of the state."

Every subdivision can get relief without increasing taxes under his plan, the governor contended, adding that no banker has questioned the soundness of his proposal. He said it would lend to home owners and builders the encouragement they need.

The R.R. & P. highway bill has passed both houses and now is in conference committee for adjustment. Objectionable Clause Not Removed  
The governor said that, although it had been agreed by the senate highway committee, after conference with him, to take out of the R.R. & P. bill the proposed two mill levy to which he objected, this was not done. It is a levy outside the Smith law limitations which county commissioners might impose after vote of the people. On the basis of the 1918 tax duplicates of Ohio, Mr. Cox pointed out, the two mill would amount to \$18,135,225.

The half mill state levy of the new highway bill, he said, would yield \$1,334,051 and the one mill levy of the same bill to enable counties to meet state aid, \$3,055,153. Each of these levies is outside the Smith law limit. In addition, he continued, there will be \$5,420,542 from the federal government and \$2,121,275 from automobile licenses.

A Staggering Total  
This makes a total of \$23,191,637, the governor said. "Now bear in mind that additions may be made to this. First, the graduated automobile license proposal, which, by the way, is marvellous, would yield, instead of \$2,000,000, an amount estimated from \$6,000,000 to \$8,000,000. Therefore, our calculations, let us add \$4,000,000. That would bring the total to \$33,191,637. Within the 16-county limitation counties and townships can spend \$10,000,000, creating a total of \$53,191,637. The 1919 duplicate, upon which assessments will be made, will be easily six percent in excess of the 1918 duplicate, so that an additional six percent must be calculated in consequence, making in all the staggering total of over \$66,150,687, which can be disbursed by the tax payers in the state, during 1919 for roads only."

### WOMEN TO SHAPE WORLD COMMERCE; SAYS MRS. GOULD

Mrs. Katherine C. Gould, president of the Women's Chamber of Commerce, Chicago, believes that women are to play a most important part in impending trade developments. Mrs. Gould, who has traveled all over the world and seen the homes of natives in almost every land, says, "Women spend more than two-thirds of the money that goes into the trade of the world and their understanding of each other's needs is far better than that possessed by men, therefore women hold the balance of power in foreign trade and commerce."

OPENING STOCKS  
NEW YORK, May 9.—The most significant feature of the early dealings in the stock market today was a two point advance in U. S. Steel. This was evidently in recognition of the free or open market for manufactured steel which is expected to result from the failure of producers and the railroad administration to agree on prices. The more spectacular features included further gains of 22 1/2 points in Texas Company and 8 in Atlantic Gulf. Other oils and shippers were strong with independent steels, sugar, leathers and textiles.

### English Words.

It would be impossible to give the exact number of words in the English language. Words are constantly being coined and foreign words are being added to the language. A recent edition of a leading dictionary gives between 400,000 and 600,000 words. Many of them are derivatives, as run, running, ran, runner, etc.

### Won Victoria Cross.

The first Victoria Cross in the Crimean war was given to a sailor, who afterward rose to be a peer admiral. Commander O. D. Lucas, who when a shell, striding but unexploded, fell on the deck, picked it up with his hands and cast it into the sea. The tossing overboard of the shell undoubtedly saved the British flagship. At the battle of Eland, when the fleets of Germany and Great Britain met for the first time in combat, a British blue-jacket picked up an unexploded shell and tossed it overboard, saved his ship and won the Victoria Cross.

### A Windfall.

The origin of "windfall," in the sense of "good luck," dates from the time of William the Conqueror. It was then a criminal offense to cut timber in the forests. Only such could be gathered as the wind had blown down; hence, a heavy windstorm was hailed by the peasants as so much good luck, and from this comes the modern application of the expression.

### Good and Bad Effects of Tea.

The action of tea as a stimulant on the brain is well known. Tea causes a slight rise in the blood pressure, gives a flip to the heart, causes somewhat deeper breathing and restores for a spell waning muscular power. Its chief merit is the retarding influence that it exerts upon digestion.

## MUGGSY MCGRAW MAY BE SET TO PULL OFF BIG DEAL

Lined up in the rear are Larry Doyle, Art Fletcher, Heinie Zimmerman and Hal Chase, the men McGraw is depending on for a star infield. Below at left is the Little Napoleon, the slugger is George Burns and the great at the right is Lew McCarthy.

The fact that Jawn McGraw has six outfielders—four stars and two first-class birds, now listed on his roster leads to the belief that Jawn is planning a big deal, involving one or more of these gardeners. The three-cornered trade among the Giants, Cardinals and Washington may be near completion. Dave Robertson is hooked to be New York's big card in this deal. The six outfielders McGraw has are Robertson, Kauff, Young, Lee King, rookie star, Thorpe and Jean Dubuc.

## SPORTS DISCUSS COMING CONTEST

NEW YORK, May 9.—The Willard-Dempsey heavyweight championship bout was the one topic of discussion among Eastern fight followers during the past twenty-four hours. While there is evidence of a wide difference of opinion regarding the outcome there is no record of waverings at this time. In fact, those who take more than a passing interest in ring affairs find it difficult to reconcile the idea of a heavyweight championship battle with the twelve-round contest which it is proposed to stage on the shores of Lake Erie. There was much theorizing of fight records, books and other data on the point, and it was the consensus of opinion that it was a pugilistic innovation which required time to assimilate.

It is claimed that chess playing is dying out. In the old days, when hysteria did not have possession of the land and the inhabitants thereof, chess playing was quite popular. And, strange as it may sound, many people are having their war stamps redeemed—many people who would run to cover and hide if the light of publicity was let in on their actions. ## WRITTEN IN THE BOOK

THE unfolding of the fact that the German high command kept a complete record of American operations in France, at the same time elaborating thereon with measurement and judgment of the fighting ability of our troops is not going to create more than a passing interest—it is notorious that was the Hun's way.

It is of interest, however, to know the estimate of the American soldiers and his views thereon. From the record it is plain the Hun did not approve of American way, though his guess as to the American fighter displays shrewdness. The Hun didn't like the American because he would not battle strictly according to rule—he was always doing something unexpected and, of course, not being down in the military rules, it was so annoying. Then, too, "doughboy" hadn't a deep and solemn conviction of duty. Fighting to him was a good deal of a sport and he acted like a sportsman; he'd do things just because he wanted to, or because there wasn't anything else for him, except lie in a trench and he didn't like that sort of business. That made him do most surprising things. Then he had a way all his own of doing things, which also made a heap of unnecessary trouble in getting out of his way. A German force might be behind and on both sides of a swamp and command it with artillery. Now the French and the English would have regard for such a situation, says the record. They wouldn't attack and so the Kaiser could thin his line about the swamp and thicken it at other points where it might be to the greatest advantage. But he couldn't do that if the Americans were in front of the swamp, just because you couldn't tell what they were going to do. May be they might get tired of lying around, may be the flies might annoy them. So up they get and attack. Some way they would find a way to get across that swamp and they would go fighting around it too.

The record also set forth the five divisions the German high command considers best. At the head of these were the Rainbow and the Marines and in the roll was Ohio's own 37th. Also does it put it down that the boys from the country are better fighters than those from the cities and those from the west tougher customers than those from the east.

## THE MELTING POT PRODUCT

NEW York has given a genuine American welcome to a number of divisions that have returned from overseas, but never such a one as it did to the 77th Tuesday. May be it did not exceed others in enthusiasm, nor in the throngs that came out to "see the boys march by," but it was different in crowds and in the feeling. For in all the country there is nothing like the 77th, it being the only troops raised in one city and maintained as an entire unit through the war. There wasn't a member in it other than a resident of New York and it was drawn entirely from the progeny of emigrants. The East Side contributed to it the scions of fifty different races, speaking in many different dialects and carrying with him in freshness the speech and manners of their parents.

The division saw considerable service and, though for a time it was regarded by the Germans as the poorest white troops facing them, experience increased its efficiency and exceedingly large proportion of its officers won honors for distinguished conduct, while quite a number of its men were awarded crosses for especially noteworthy deeds of bravery.

## HER FATAL DAY

THIS May 8th is the anniversary of the day of the Hun torpedo was fired, the echo of which traveled around the earth and changed the fortunes of emperors, kings and princes and the destinies of nations, heralding the downfall of some and the rise of others.

On this day and date the Hun perpetrated the incredible atrocity and blunder of sinking the Lusitania. For a moment the heart of a nation stood still at the shock of such an appalling, such an unthinkable tragedy, then it began to smoulder with the desire for judgment that should be as terrible as vengeance, and the doom of the Germany of night and conquest was sealed.

## HE OUGHT TO KNOW

"I have done my best, I think it a good peace."

These brief words dispose more finally of the quality of the peace terms handed out yesterday, than do the columns of chatter afflicted on an eager and anxious world by the Paris correspondents.

For were they not spoken by Clemenceau, France's greatest statesman and most ardent champion? He would not think the

peace good if it were not good for France and being good for France it must be good for all the earth besides. France suffered tenfold more from war than all the other nations combined, she expected more, as she had a right to out of peace, than all the other nations.

Heartily, for France's sake, are we glad that her sharpest eye and keenest judgment says it is a good peace. About her has grouped most of the sentiment of the war, in helping her we were serving an ideal. It is well for the people that sympathy and ideal be ministered to.

Villa has taken to marauding and murdering again on a large scale. Why would it not be a good idea to send the Rainbow division down with orders to bring him in, dead or alive?

A number of Bolsheviks have been arrested in several towns. That's all well enough, as preliminary, but the sentence is the only thing that counts.

## THE WISHING PLANE

What was in the treasure box?

Jack and Jane could hardly wait until Captain Bold's men had opened it. And we might just as well tell you that Ladydear and Captain Brave and Captain Bold and all the other big folks were excited, too.

It was quite a job to open the box. The men on the submarine had to

of gold and silver, countless necklaces and rings and bracelets, each one more beautiful than the last, and bags and bags of gold made everyone gasp.

The children were afraid to touch the treasure for a minute, fearing that they were only dreaming, and that it would go away if they touched it, but when Captain Brave put his hands in the chest and stirred up the jewels like the grocer does the beans in a barrel, Jack and Jane and everybody else picked out the things they wanted to look at first, and in less time than it takes to tell, everybody was wearing all the jewelry that they could get on.

Jane was looking at herself in the glass. She had on a necklace of pearls that reached almost to the floor, so many rings and bracelets that she could hardly lift her arms, and a crown on her head so heavy that she had trouble holding up her head—to say nothing about its being so big for her that it was constantly slipping down over one ear.

Ladydear was wearing jewels more gorgeous than the queens, that Jack and Jane had seen in the movies and in the picture books at home. Everybody else was wearing rings, chains, and all sorts of beautiful things.

Even Bold had so much jewelry on him that he could hardly walk. He looked for all the world like a big pin cushion with his white fur covered with jewels. He, too, must have been proud of himself, for he was standing in front of the glass, wagging his tail at a great rate.

After everybody had seen all of the jewels and had worn loads of them and had tried to guess how much money there was in the bags, everything was put back in the chest.

"Now the next question is, how are we going to divide them," said Captain Bold.

I will wait until tomorrow to tell you how they divided the treasure. (Copyright, 1919)

## NEW YORK DAY BY DAY

New York, May 9—Thoughts while at the bridge table in a Manhattan club: Distinguished fellow with the monocle is Arthur Stringer just down from Canada. Funny about General Wood getting a medal. Great Bulls of Fire! I mistook the Ace of diamonds for that of hearts. I'll not say anything cutting back.

Look at that woman in a tight skirt getting in a hansom on the avenue—almost a public scandal. The old fellow playing pinocle reminds me of Barrie. Heard the other day that Barrie loved to go to children's parties. Never missed going when invited. Why did he choose "Dear Brutus" for the name of a play. Pinkie believe me. Wonder if that's our trick?

Heard of a man putting an ace between a sandwich, eating it and calling

ing a misdeal after playing the wrong Ace down at the Whist Club. Why do men wear Van Dyke whiskers? There's class to this club. Hope I'm invited here again. Good thing to refer to. Heard today that two young debutantes were caught in a raid on a dope dealing doctor's office. Gee, I've miscounted the trumps.

That was a funny speech Stephen Leacock made at the Author's League banquet. Mrs. Mary Roberts Rinehart looked swell in evening clothes. Liked to hear Kathleen Norris' talk. Don't hesitate to talk about being hungry when she was a free lance reporter. No wonder she writes human stuff. Must put the cards at the left of the dealer and I won't get mixed up.

Hope they slip us something to eat. Strange how people drop into the one

## WHO'S WHO IN THE DAY'S NEWS

LEON BOURGEOIS

Leon Bourgeois, one of the elder statesmen of France, was placed by the French government many months ago at the head of a foreign office committee to deal with the League of Nations. His greatest claim to reputation is his work on the committee appointed to deal with the problem of the League of Nations.

B. BOURGEOIS

both in France and abroad.

Mr. Bourgeois was born in Paris in 1851. He is a lawyer and a Radical. He has become a specialist in all questions of international or inter-party arbitration or compromise. In 1888 he entered political life, defeating Boulanger by an enormous majority. He has always been one of the men who could be depended upon in time of crisis and until a few years ago presidents in search of a cabinet always turned to him. In the grave situation which arose after the attempt on President Loubet's life he used his powers of managing men and succeeded in forming a ministry when all others had failed.

He was a white-tiled eating place after the fashion of the old days. War did it. Why isn't been in real life life way it is in the advertisement? Gosh, but I'm hungry. The poor fish, why glare at me. I couldn't take him out.

Understand a cantaloupe costs two dollars apiece at Fifth Avenue hotels. Jessie James was a piker. Those Russian blouses the women wear are snappy. Feel sorry for the fellow drinking Scotch. Home life is terrible. Wife practices aesthetic dancing in the house and is always leaving cigarette stumps around to burn holes. Thank heavens, it is the last rubber.

Young Jack McDowman, so the rumor goes, is to pierce upper Fifth Avenue with another plant/hotel. It will be in the neighborhood of the hotel center in which are located the Plaza, St. Regis, Gotham and the Ritz. McDowman, who used to be a riding instructor at Durand's can look out of his window at the Biltmore and see the hotel Commodore, Belmont, Manhattan and Murray Hill. To the north was the Auscula out of his vision and also the Griswold at New London Conn., and the Belvedere at Belkair, Fla. McDowman is the hotel king of the world, a youthful monarch who has yet to see his 40th year. He has the spirit of a boy. In business he is severe and punctual in everything.

Any from his office, and I have been with him since from his office, he is able to scuffle with you, box with you or play leap frog, he came from Saratoga 20 years ago without a dollar. He has visions and many believe his chain of hotels will spread to London, Paris, Brussels, and in the Orient. Nothing seems impossible for him. When you believe he has built just one too many large hotels—you wake up the next day to find he contemplates another bigger and he fills them all. His hotel investments run up to nearly \$75,000,000.

Tin Pan Alley is grinding out prohibition songs and they are finding a ready sale on Broadway. The most popular one seems to be "How are you going to meet Your Whistle, When the Whole Damn World Goes Dry?" It was written by Percy Wenrich who studies song psychology like most city editors study current events. He has never written a failure and from a poor boy he has become one of the wealthiest young men in New York.

## SCAT!

THANKS TO DORRNEY

## The Workman To The Soldier

Said the workman to the soldier as the ship put out to sea:

"While you're over there for freedom, you can safely bank on me! I'll be just as brave as you are, in a safer sort of way, And I'll keep production going every minute of the day."

Said the soldier to the workman, as the ship put out to sea:

"I'll be true to you, my brother, if you'll just be true to me. Now we're got to work together, it's my job to bear a gun, But it's yours to keep on telling, if we're going to lick the Hun."

Said the workman to the soldier: "I will back you to the last, No more strikes for higher wages, till the danger time is past."

Said the soldier to the workman: "I'm for you and you're for me; Now we understand each other, let the ship put out to sea."

## New Breed

Donald was enjoying a ride with his mother when he noticed a black and white dog and remarked, "Way mother, there's a Holstein dog."

She held it before her, admiring and fondling it, and murmuring at intervals:

"How beautiful! How lovely! How just too awfully sweet!"

"I'm glad you like it, dear," said mamma. "Oh, I do! And isn't it wonderful to think, mamma, that this exquisite creation of silk is all obtained from a mere insignificant worm? I've been reading of—"

"Flossie!" interrupted her mother sternly, "Is there any reason why you should speak so disrespectfully of your father?"

## Star Gazer's Reward

Long had he worshipped her at a distance, but his shyness prevented him from proposing.

Then, one evening, for the sweet sake of charity, a theatrical performance took place, in which the character was leading lady and more adorable than ever. Afterwards the shy admirer drew near, his love made valiant by the sight of her beauty.

"You are the star of the evening," he said, as they stood alone in a corner.

"You are the first to tell me so," said the damsel, with a happy blush.

"Then," he rejoined promptly, "may I claim my reward as an astronomer?"

The lady looked puzzled.

"What reward," she asked.

"Why, the right to give my name to the star I have discovered!"

As he polished his customer's boots the bootblack puffed at the stub of a cigar. The customer asked him if he always smoked cigars.

"Oh, yes, pretty often," declared the youth.

"What brand do you generally smoke?" was the next question.

"Robinson Crusoe, sir," came the reply.

The customer thought for a minute. "I never heard of that brand," he said.

"It's a name I've given 'em myself," said the youth. "You see, Gue'nor, old Crusoe was a cannibal."

## A Guide to GOOD MANNERS by Janice

It is incumbent on dinner guests to be prompt. A tardy guest is a great trial to a host and hostess. It is hardly excusable, unless there is an excellent reason for doing so. Do not be rushing away in haste the instant dinner is over. Tarry for at least an hour in the drawing room before departing.

On withdrawing take leave of the host and hostess and express thanks for a very pleasant time. Do not be gushing, but do not be chary of thanks either. Do not take a formal leave of the other guests; if one chooses one may wish them a general good-night.

As She Wrote It

The mother of an eight-year-old North Mahan street girl wished to send her on an errand to the grocery.

"Get a can of peas," said the mother "they're little peas. I think they are called Lillian peas."

"I can't ever remember that name," said the small girl.

"Very well," said the mother, "then write it down."

And this was the puzzle she presented the grocer:

"One can Lilly-Pugh Shun peas," said Indianapolis News.

# One More Day And Victory Loan Drive Will Come To End

## Merchants Buy Heavily, Farmers Doing Their Part, Will Quota Be Reached?

"One more little turn of the paddle—your last chance to get in the game." That cry that you have heard at so old time country fairs is applicable to the local Victory Liberty Bond campaign. "One more short day—your last chance to get in the game." For the big drive closes Saturday night, and the committee is holding its breath in anxiety. There are some members of the committee who have optimistic frame of mind and others are sitting tight and waiting to be shown. The great question is "Will the Victory Loan drive be successful?" Hereafter, the question was taken for granted. The committee has no misgivings. But it seems that while it would be an easy matter for the city and county to subscribe their full quota, \$1,000,000, the necessary enthusiasm is lacking—there is not that "pep" that was so manifest in the other four campaigns. But that does not mean the quota will not be reached. Still, water runs deep and perhaps before the time limit expires the word will be flashed that all is well and that the good people here have answered the call of their country in a way that leaves no one chance to question their loyalty.

The committees are working hard—they are going over the ground with fine teeth combed. Pressure is being brought to bear and in practically every instance said pressure is bearing fruit.

## Tank Is Due This Afternoon

### IS COMING BY BOAT

The Liberty Loan Committee in charge of the plans of bringing the tank to Portsmouth to boost the Victory loan were very much encouraged this morning when they received a telephone message from Georgetown that repairs had been made to the tank and that it would in all probability arrive in Portsmouth today.

It is coming by way of Ohio river, having been shipped on the steamer Tacoma at Manchester, to which place it was taken from Georgetown.

The Tacoma is due to arrive at the local wharf sometime this afternoon. This means that the residents of Portsmouth and Otway will not get to see the tank in their respective towns as scheduled. The men in charge are probably bringing the tank direct to Portsmouth in order to make rail connections back to Cleveland.

The tank will likely remain here all day Saturday and will give exhibitions on the big lot at Seventeenth and Findlay streets. The machine is known as a Whippet Tank and is in charge of two men from the Tank Corps who drove tanks over the battlefields of France and Belgium.

One of the best exhibitions that could be given by the tank will doubt take place when it climbs the river grade from the wharfto to Front street.

The tank was so heavy when loaded on the bow of the Tacoma that the wheel of the boat was raised from the proper running depth, which will delay the arrival of the boat here. There was no space for the big truck that accompanies the tank, and it will come to Portsmouth by land.

The crew of the tank is composed of Capt. Switzer, M. Switzer, P. M. Smith, W. H. Cline and Ben Lott of Cincinnati is the speaker.

An exhibition was given at Manchester this morning at 9 o'clock to a thousand people. The tank arrived there last evening from West Union.

## To Give Comic Operetta To Produce Operetta

The rehearsals of "The Yokohama Mail" under the able direction of Mrs. Sam Timmons, give promise of a rare treat to be enjoyed by Portsmouth people on next Monday and Tuesday evening. No one interested in beautiful music and attractive young people can afford to miss this operetta the Junior Literary Society is producing. The tickets are selling rapidly and no doubt capacity houses will greet both performances. As all seats are to be reserved and no more tickets will be sold than there are seats in the auditorium it would be well for anyone not supplied with tickets to call 187 and procure them before it is too late.

The chart to reserve seats for Monday evening will be at Branda's book store, Friday, up to 5:30. For the Tuesday evening performance the chart will be open at 1:30 p. m. If convenient reserve your seats at the following hours:

Friday, 2:30 until 5:30 p. m.  
Saturday, 8:30 until 12:30 a. m.  
Monday 1:30 until 5:30 p. m.  
Tuesday, 9:30 until 12:30 a. m.

## Women To Close Drive With Renewed Vigor

On the last lap of the race toward the goal—Success for the Victory Loan—some women who have not contributed to the drive are being urged to make every effort to get the issue through. The women of Seloto County have never fallen down on a chairman of the Central Committee. Mrs. Albert Herditt, be notified, the war issue, now is the time to rally to the standard. The gratitude of the women must not be neglected and they are urged to renew efforts in their Victory Loan is nothing more than paying a debt of gratitude.

So far the women have done very well under the circumstances but there are women who have not contributed to the drive and some women who have contributed but have not been overlooked in the issue. Mrs. W. H. Schwartz, or the issue through. The women of Seloto County have never fallen down on a chairman of the Central Committee. "WE NEED JOBS FOR SOLDIERS!" All the welfare and other organizations that are concerned with the returned soldier's welfare and the United States Employment Service through which they center their efforts are searching the community for jobs for these boys.

They need your co-operation, Mr. Employer.

The same supreme effort that enabled the nation to raise, equip and supply the vast army which brought the Hun to his knees, is needed now to assimilate into civil life and provide this same vast army. Each community must take care of its own, if the task is accomplished promptly and smoothly.

We encourage these boys to make the sacrifice they did in the world crisis. We owe them real consideration now.

The United States Employment Service handles workers of all kinds—professional, technical, skilled and unskilled. Your part, Mr. Employer, is to list and keep listed with U. S. Employment Service jobs you have available for these boys. There is no fee, no charge for service rendered either employee or employer, or anyone else. Spread the gospel of jobs for soldiers.

Ohio's fighting men—they who wrote in Buckeye blood those glorious pages of American history from Swanton back to the North Sea—are coming back to us. WELCOME THEM HOME WITH A JOB.

Mail or phone your needs to, United States Employment Service, 208 Chillicothe Street, Phone 2036.
